SUMMARY

Motivated and detail-oriented MCA fresher with a strong foundation in data structures, algorithms, and full-stack web development. Proficient in Java, Python, JavaScript, React.js, and MySQL, with hands-on experience through academic projects and internships. Eager to contribute to a dynamic tech environment through problem-solving, teamwork, and continuous learning.

SKILLS

Technical Competencies:
- Languages: C, C++, Java, Python, JavaScript
- Databases: MySQL, MongoDB
- Web Technologies: React.js, Express.js, Servlets, JSP
- Tools: Git, GitHub, Postman
- Core Competencies: Data Structures & Algorithms (DSA), Problem Solving, Team Collaboration, Project Planning

EDUCATION

Master of Computer Application   Sep 2023 - June 2025
IPS Academy, Indore

Bachelor of Science   July 2018 - Sep 2022
PTSNS University, Shahdol

EXPERIENCE

Web Developer Intern
Rental Riders | Jan 2025 – June 2025
- Created web pages using HTML, CSS, JavaScript, and React.js
- Helped connect frontend to backend using Node.js and Express.js
- Worked with the team to fix bugs and improve website features
- Used Git to manage and share code

PROJECTS

- **Donationchain**: Designed a blockchain-based system for securely storing and managing donor details. The project includes features for tracking donations, real-time reporting, and data analytics. It ensures data integrity and transparency with an immutable ledger, offers a simplified user interface, and is scalable for handling large datasets.
  Tech Stack: Express, EJS, Solidity
  https://github.com/ritesh-dwivedii/Donationchain
- **Stayzy (Rental Booking Platform):** Currently developing a rental booking platform that facilitates seamless property listings and bookings. The platform aims to provide an intuitive user experience, secure payment integration, and efficient booking management to simplify rental processes for both owners and tenants.
  Tech Stack: Node.js, Express.js, MongoDB
