PROFESSIONAL SUMMARY

Software Development Engineer with expertise in **Java**, **Spring Boot**, **microservices**, and **Shopify app development**. Building production-grade Shopify apps at **Toolstr** — contributing to *Apploy* (no-code mobile app builder, 5.0/5) and *Super Local Delivery* (last-mile fleet management, 5.0/5). Skilled in RESTful API design, JWT auth, and full-stack development with React.js and Node.js. **Global Rank 2091** in TCS CodeVita Season 12.

EXPERIENCE

Toolstr / *Software Development Engineer I (SDE-1)*

Apr 2026 – Present

Pune, India (Hybrid)

- Developing backend for **Apploy** — a Shopify app converting merchant stores into fully branded iOS/PWA mobile apps with real-time store sync, unlimited push notifications (85%+ open rates), and app-exclusive discounts; **5.0/5** on Shopify App Store with 25+ reviews
- Built Shopify GraphQL API integrations for theme sync, push notification scheduling, and third-party app compatibility layer using
- Contributing to **Super Local Delivery** — an all-in-one fleet management Shopify app with bulk route optimization, driver mobile app (proof of delivery, navigation, earnings), and live customer tracking with ETAs; **5.0/5** on Shopify App Store
- Engineered route planning APIs integrated with **Google Maps, Apple Maps, and Waze**; built real-time SMS/email notification pipeline for delivery status and ETA updates
- Implemented driver assignment, multi-fleet coordination, and proof-of-delivery backend handling concurrent delivery tasks and earnings tracking
- Integrated **Shopify Webhooks and Flow** for automated order tagging, assignment triggers, and fulfillment status sync; deployed on **Docker** with Git-based CI workflows

PROJECTS

Apploy: Mobile App Builder | Node.js, Shopify GraphQL, React.js, DynamoDB, ClickHouse, Push Notifications

Toolstr, 2026

- No-code Shopify app that launches a fully branded iOS/PWA mobile app in under 10 minutes — full design parity with store theme, real-time product/content sync, and support for all existing Shopify app integrations

Super Local Delivery | PHP, Shopify Webhooks, Google Maps API, MySQL, JWT, SMS/Email

Toolstr, 2026

- Shopify last-mile delivery management platform with bulk route optimization (time/distance/cost), driver app with proof-of-delivery, live customer tracking, and support for same-day, express, and multi-fleet operations

Task Flow — Microservices Task Management | Spring Boot, Spring Cloud Gateway, Eureka, RabbitMQ, React.js,

GitHub

MySQL, JWT

- Microservices system with Spring Cloud Gateway, Eureka service discovery, JWT-secured RBAC, and RabbitMQ async notifications; admin/employee React.js dashboards with Axios and React Router

TECHNICAL SKILLS

Languages	Java, JavaScript, TypeScript, C, C++
Backend	Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Spring Cloud Gateway, Eureka, Node.js, Express.js
Frontend	React.js, HTML5, CSS3, Tailwind CSS, Material UI, Axios, React Router
Shopify	Shopify REST API, GraphQL Admin API, Shopify Webhooks, Shopify Flow, Shopify App Bridge
Databases	MySQL, MongoDB, Hibernate ORM
DevOps	Docker, Git, GitHub, Postman, RabbitMQ, Google Maps API
Core	Microservices, REST APIs, JWT Auth, RBAC, DSA, OOP, SDLC, Agile

EDUCATION

PG-DAC / *C-DAC Pune*

Aug 2025 – Feb 2026

MCA / *IPS Academy, Indore*

Sep 2023 – Jun 2025

B.Sc. / *PTSNS University, Shahdol*

Jul 2018 – Sep 2022

ACHIEVEMENTS

TCS CodeVita S12 (2024)

Global Rank **2091** among thousands of participants worldwide

Deloitte AU Simulation (2025)

Completed technology simulation on emerging tech and industry practices

Infosys Springboard

Certified in HTML, CSS, and JavaScript

TCS iON Certification (2025)

Certified course in professional communication skills
